STOCKHEAD

JMM delivers over 17 years' experience as investor relations and media communications advisors, with an award-winning team of account directors, copywriters, creatives, designers and digital marketers to provide ASX listed companies with a full suite of traditional and digital services, facilitating more effective communications with shareholders and investors.

STOCKHEAD

Australia's leading news website covering emerging companies

In today's challenging media landscape, emerging companies face significant hurdles in obtaining quality media coverage. Publications are often stretched thin and prioritize coverage of larger, more established businesses. Consequently, investors struggle to access consistent and engaging information about stocks beyond the ASX200.

Stockhead is here to bridge that gap by offering the widest distribution for ASX small cap companies via its own platform and dedicated sections in The Australian and other News Corp mastheads, connecting emerging companies with investors seeking high-return investment prospects. Stockhead's platform is specifically tailored to cater to the needs of today's fast-paced mobile audience, ensuring convenient and accessible information sharing.

COMPANIES PRESENTING

ASX:OAU

Ora Gold Limited (ASX:OAU) is a mineral exploration and development company which holds a substantial package of tenements in the prolific Murchison goldfield near Meekatharra, Western Australia. The Company is focussed on the Garden Gully Gold Project which comprises a 677km² tenure package covering the Abbotts Greenstone Belt. The project has multiple gold prospects along the belt with the most advanced being the Crown Prince Prospect.

Alex Passmore
Chief Executive Officer

ASX:AZL

Arizona Lithium (ASX:AZL) is a company focused on the sustainable development of two large lithium development projects in North America, the Big Sandy Lithium and Prairie Lithium Project.

The Prairie Project located in Saskatchewan, Canada, holds a resource of 6.3 MT of LCE, (4.5 MT LCE Indicated and 1.8 MT LCE Inferred). The Company completed a PFS confirming extremely low op costs of US\$2,819 per tonne, making the Prairie Project one of the lowest cost global projects.

AZL commissioned a pilot plant in Nov 2023, which at the one-third point of the scheduled test duration, had processed over 80,000 L of brine and produced over 6,000 L of lithium concentrate, producing a remarkable steady-state of 95.6% Li extraction established at an average feed concentration of 118 mg/L, with no single-point exceedance below 94% recovery.

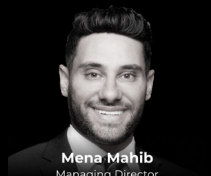

Paul Lloyd
Managing Director

ASX:PNN

Power Minerals (ASX:PNN) is an ASX-listed lithium-focused exploration and development company, committed to the systematic exploration and development of its core asset, the Salta Lithium Brine Project in the prolific lithium triangle in the Salta Province in Argentina. It has recently completed a major JORC Mineral Resource expansion drilling campaign at Salta, and is focused on expediting development of the Project in to a potential future lithium producing operation. Power also has a portfolio of other assets in key, demand-driven commodities including; kaolin-halloysite-REE, nickelcopper-cobalt and PGEs.

JMM & STOCKHEAD PERTH INVESTOR LUNCH

ASX:IEC

Intra Energy Corporation (ASX:IEC) is a diversified mining and energy group committed to environmentally responsible practices, focusing on battery, base, and precious metals exploration to support global decarbonization and electrification for a clean energy future. Currently, IEC is advancing three promising projects: the Llama Lithium Project in the James Bay Region of Québec, Canada, covering 63km² with 123 mineral claims and featuring reported outcropping pegmatites; the Valgarra Project, a 70% owned joint venture in Western Australia near Kalbarri, targeting magmatic nickel-copper-cobalt-PGE mineralization exploration; and the Maggie Hays Hill Lithium Project situated in the emerging Lake Johnston lithium province of Western Australia.

Benjamin Dunn
Managing Director

ASX:LLI

Loyal Lithium (ASX:LLI) is a North American focused lithium led battery minerals company with projects in the Tier 1 jurisdiction of the Northwest Territories, Canada, James Bay Lithium District in Quebec, Canada and Nevada, USA. Through the systematic exploration of its projects, the Company aims to delineate JORC compliant resources, creating value for its shareholders.

Adam Ritchie
CEO

e: aritchie@loyallithium.com

Capella Metals is a new company exploring for Copper and Uranium in the top-tier Mount Isa region. Capella has over 2,000km² of prime tenure in this tightly held region, with the same regional structures that host Glencore's Mount Isa Operations right next door, and Paladin's Valhalla Uranium Project among other globally significant deposits in the region. Capella's strategy is to target our known high-grade Copper-Gold deposits, multiple high-grade Uranium prospects, and giant Copper and Zinc-Silver-Lead deposits using modern geological models and methods. Capella will list on the ASX in early April.

Cain Fogarty
Managing Director

e: cfogarty@capellametals.com.au

ZRX is an emerging gold and base metals exploration and development Company through an agreement to acquire a 100% interest in the world class Rogozna Project, a major gold-copper skarn deposit that boasts a substantial 5.4Moz AuEq JORC 2012 Resource base. The Project is located in the renowned mining jurisdiction of Southern Serbia, Europe's second largest copper producer. Serbia is one of the most attractive mining destinations globally benefiting from a favourable tax regime, existing infrastructure and a highly skilled low-cost workforce. In conjunction with the outstanding geology and project quality, Serbia has attracted the presence of several major miners: BHP, Vale, Rio Tinto and Dundee Precious Metals.
